## Property Description

You know this is the one! The one you've been waiting for! This home is warm and cozy and has been lovingly maintained. The large open concept living, dining, and kitchen are roomy enough for the whole family to gather around the fireplace. The kitchen features lots of wood cabinets and extra storage as well as so much counter space for all the cooks in your family! Beautiful tile floors run from the entry through the kitchen. A convenient guest bathroom on the first floor! Upstairs the master bedroom features vaulted ceilings, a master bathroom that is just fabulous by anyone's standards, lots of closets, and you even have a balcony for that evening night cap. The 2 additional bedrooms are comfortably large. A full bathroom in the hall is great for the kids or guests either way you don't have to share your bathroom. Speaking of the kids, how much would they love this backyard? It comes with a play set for them and a storage shed for you. The current owners have built a life time of memories here and we hope that you will too.
